

**Always well
looked after.**

Gesundheit & Wertvoll

Private provision for children

Hooray, your tiny bundle of joy has finally arrived! Now begins the exciting time of getting to know one another: When my baby cries, what are they trying to say to me? That they are hungry? Thirsty? That something hurts? If something happens, you want to be

reassured quickly and get the best-possible treatment for your child. It is especially important that they feel safe and secure, so that they will be fit and healthy again as soon as possible.

Help them get better quickly.

Whether it's their first cough or a small tumble off the slide, young patients need help swiftly! With private healthcare provision, your child always comes first and is well looked after, day and night.

Feel completely at ease.

Young patients are particularly sensitive to unfamiliar situations. Which is why it is all the more important to choose a doctor who takes their time and is willing to listen.

Enjoy a carefree childhood.

Children are inquisitive and are not as good at identifying potential danger. An accident can happen very quickly. We make sure that your child is protected as they go through life and are on hand to provide the best help and support should the worst happen.

Children need special protection.

We lend a helping hand, so that you can take proper care of your little one when they are feeling unwell!

Feel at ease as a private inpatient

If your child has to go to hospital, they need extra-special care. So choose doctors and a hospital you can trust and stay with your child in hospital at any time. Your little patient will be fit and healthy again in no time.

Recover quickly with overnight and weekend care

Children are experts at developing acute symptoms in the evening, at night, at the weekend or on public holidays. With the Acute Care add-on, your little one is taken care of quickly, even if no-one else can be contacted. We settle the cost directly with our partner.

When a plaster is no longer enough

Little explorers climb up their high chair as if it were Mount Everest and the swing in the playground is a dragon to be tamed – an accident can happen very quickly.

Your little one is not legally insured in the home and when at leisure. This means that if the worst happens, only private accident insurance provides financial support and quickly covers the cost of medical treatment, as well as physiotherapy. We are happy to organise someone to assist as required, no matter what life throws at you.
